New city office

December has seen us move from Malaga to our new city office on St. George's Terrace. As outlined in last month's edition of Street Press, the move will assist us in focusing on our core business (RIAS) by placing us closer to key stake holders.

The new office is currently being renovated and branded to suit our requirements and is scheduled to be completed early in the New Year.

In addition to the office refit, we are also currently working on a RIAS Technologies website. We'll keep you posted on our progress!

Please refer to the bottom right hand side of this page for our new contact details.
